Welcome to our friends in the cattle business,

We would like to extend a special invitation to be with us on Saturday, April 11, 2015 for our annual production sale at the ranch. The cattle will be on display for your viewing and we will have videos available prior to the sale on our website. The cattle will be sold by video auction and will be broadcast online with DVAuction.

Come join us for lunch on April 11th and see the first offering of our powerful herd bull, NJW 37U 100W Trust 113Z. We are very pleased with this powerful first crop of bulls from this great Homozygous polled sire. Many sons are polled and we are offering an outstanding set of horned bulls.

The Angus Bulls are a powerful set of bulls with tremendous growth and excellent thickness. All the bulls will be semen tested and will have been given pre-breeding shots including an autogenous pinkeye vaccination prior to the sale.

The bulls weaned off very good with respectable weights and with no creep or grain...just milk, grass and good water. The Hereford bulls and Angus bulls were weaned on our feed supplies and were grown on a moderate roughage and grain ration. They are performance tested, semen tested and ready to be used.

In our advertisements we planned to sell our 2014 replacement heifers in our sale. This was going to be a complete dispersal of our 2014 heifers. We were approached to sell the entire group before the printing of the catalog and decided to sell. Consequently, only the bulls are in the sale.

Feel free to come and look at the cattle anytime. Please call ahead if possible.

Again we are broadcasting live by DVAuction on the internet.

Please join us for lunch on sale day and we hope to see you on Saturday, April 11.

Thank you for your friendship and your interest in our cattle.

The Thorstenson Family

Sired by 25L and out of one of our best cow families. Thor is a sire that is better than breed average in all measureable traits and is a trait leader in 10 different traits. This unique tabulation puts him in a category of only a few select sires in AHA. His sons and daughters indexed the highest in our herd of the sires we used. Co-owned with Frederickson Ranch and ABS.

20X is the "MVP" of the young herd bulls. He is low birth weight with curve bending numbers...superior growth, milk, carcass and eye appeal. His solid markings with full eye pigment and great disposition round out his MVP traits. His EPD numbers across the board put him in very select group of herd bulls.

113Z was our pick from NJW's sale in 2013. He is a homozygous polled herd sire that was the high seller. A complete package combining moderate birth, tremendous performance with strong maternal cows in his pedigree. First sire group was tremendous in weaning weights, natural thickness and overall performance. Beautiful daughters with great dispositions. First sons sell!

	1.0	43	66	21	42	.091	.16	.25

2100 is a real thick, deep herd bull with calving ease. He was the high seller in our 2013 sale and sold to Melcher Herefords. 2100 is sired by THR Thor 4029, a great sire raised on the ranch and sold to ABS. 4029 was still breeding cows at age 10. We used 2100 on heifers and got along really good. His BW EPD has gone down and should be a real calving ease sire.

0001X is a moderate framed, really thick herd sire with powerful muscle shape. He is solid marked with eye pigment and large testicles. His dam, 1028, is one of Jack Holden's best cows and has produced over \$200,000 in progeny sales. A role model brood cow that makes 0001X very important in our program. His sons should really cross on black cows.
