HEREFORD RANCH

Silent Auction Begins

April 24, 2010

1:00 pm

At the Ranch, Selby, SD

Located 1 mile south, 2 miles west of Selby

SELLING

32 Hereford Bulls

21 Angus Bulls

GENERAL INFORMATION

Terms and Conditions: Terms of the sale are cash. All cattle are the buyer's property as soon as sold and will be taken care of for a reasonable length of time at the buyer's risk. Neither the owners nor any person connected with this sale, assume any liability, legal or otherwise.

Guarantee: Every animal is to the best of our knowledge, free from any disease or defect. All animals are guaranteed breeders. If the animal proves to be a non-breeder, either an animal of comparable rank will be substituted or money refunded or credit in a future sale.

Health: Health of the herd is excellent. Individual health papers will be furnished for shipment anywhere.

Sale Format: The bulls will be sold by silent auction for the opening day. This allows everybody the opportunity to purchase the bull of your preference. Each bull will have a bid card on a table and will be assigned a base price. The bidding will last for 1 hour to 1 ½ hours. When the bidding stops, you own the bull with your final bid. Buyers unable to attend opening day may leave bids or phone in on sale day.

Welcome,

We extend a special invitation for you to be with us on Saturday, April 24, 2010 for our opening day of our Private Treaty Sale. Opening day will be a silent auction of the bulls presented. This could be the best bulls we have ever offered and they will be on display that day for easy viewing. The silent auction will begin at 1:00 p.m. and run for about one hour to 1 ½ hours. Come and join us for lunch at 11:30 a.m.

The quality, natural thickness, and structural correctness are as good as we have produced. Our cattle are raised on hard grass and the cowherd is wintered on hay. The bulls were weaned in October and grown on ground hay, silage and corn with emphasis on soundness and natural thickness. The Hereford bulls are horned or polled and horned bulls have been dehorned. Some of the bulls may have scurrs. We will have complete performance information, EPDs and ultrasound data on the bulls.

In today's tight cattle economy you can capitalize on using Hereford bulls. Heterosis and hybrid vigor will give you more pounds and increase your bottom line. Today's baldy is in more demand than ever before.

The Hereford bulls are sired by outstanding sires, but we are especially proud of the bulls by THR THOR 4029. Wow! What a sire group! Tremendous thickness, shape, and eye appeal with moderate birth weight. This will be the only place to find this kind of offering from this great sire.

The Angus bulls are stout and thick with moderate birth weight, quiet disposition, and a lot of eye appeal. They are developed to give your predictable, problem-free high performing breeding bulls.

Please join us for lunch and the opening day of our Private Treaty Auction on Saturday, April 24th, 2010. See you then and Thank You for your interest.

Tremendous breeding bull! 2600 lbs. at three years of age. He breeds moderate birth weight, superior performance with big rib eyes. Trait leader in seven traits and the daughters are thick, very good uddered with high maternal traits. His influence can be seen in our daughters and the sons we are using.

4144 is a horned bull we raised and is sired by a son of CL 1 Domino 484. A strong topped, big hipped long bull that sires good growth and big performing cattle. Daughters are in production and are good uddered with ample milk. His mother is 1028, the dam of lot 9215, and 8050 is the grandam. Six very good sons sell.
