Welcome from Thorstenson Hereford Ranch,

We would like to extend a special invitation to be with us on Saturday, April 13, 2013 for our annual production sale at the ranch.

It has been a challenging year for many with the dry conditions throughout the country. Hopefully, moisture will come in 2013 and allow everybody to charge on.

The bulls and heifers went through a very dry summer this past year. They were raised by their mother's milk and dry grass...no commercial feed or creep feed. We still had respectable weights and our genetics held up.

This group of bulls is some of the best bulls we have raised. New sires introduced along with Thor have produced a tremendous set of bulls. THR Thor 4029 has continued to escalate in semen sales. This past winter he has sired an International champion...Grand Champion heifer at both Canada's Agribition and Denver National Stock Show! We will have bulls and heifers by Thor in our sale.

We are sure grateful for the good comments on our bulls and heifers. One of our customers reported the sale of black baldy heifers bringing \$1,275 weighing 781 lbs...a tremendous sale and testimony to using Hereford bulls on black cows!

Another feature in our sale is 30 registered yearling heifers. They are right from our replacements and should make excellent cows. The heifers have been bangs vaccinated and have had their pre-breeding shots. They are ready to breed.

Feel free to come and look at the cattle any time. If you can't make to the auction, we will be broadcast live by DVAuction on the internet.

The sale offering will be videoed prior to the sale and will be available at ThorstensonHerefordRanch.com

Please join us on Saturday, April 13th and thank you for your interest and friendship.

The Thorstenson Family

Our new granddaughter, Landri Kennedy, born November 21, 2012 and her sister Gracin. Daughters of Darin and Danielle.

Directions to Ranch:

Turn west on Highway 12 & 83 south of Selby at 131st Street which is 1 mile south of Selby. Go west 2 miles on oil road and ranch is 1/4 mile south.

Sired by 25L and out of one of our best cow families. Thor is a sire that is better than breed average in all measureable traits and is a trait leader in 11 different traits. This unique tabulation puts him in a category of only a few select sires in AHA. His sons and daughters indexed the highest in our herd of the sires we used. Co-owned with Frederickson Ranch and ABS.

20X is the "MVP" of the young herd bulls. He is low birth weight with curve bending numbers...superior growth, milk, carcass and eye appeal. His solid markings with full eye pigment and great disposition round out his MVP traits. His EPD numbers across the board put him in very select group of herd bulls.

0001X is a moderate framed, really thick herd sire with powerful muscle shape. He is solid marked with eye pigment and large testicles. His dam, 1028, is one of Jack Holden's best cows and has produced over \$200,000 in progeny sales. A role model brood cow that makes 0001X very important in our program. His sons should really cross on black cows.
